Attachments: Final PFAS Guidance Signed 4-Sep 18.pdf

FYI.....

Sharon ---- It may be why Picatinny agreed to sample at their base boundary. (section 6, 1 PP, last line)

Chloe – Section 7 gets into how they evaluate hazards and risk. Also even if there is a State promulgated standard the Army included a caveat of making this an ARAR because only where the Army has “reviewed and approved” will it be considered.

There is a Q/A at the end. Questions 15 & 16 is especially interesting.
